## Precautions for installing capacitors 安装电容注意事项

▲ 确保电容引脚与碳板有足够距离  
Keep capacitor pins spaced from the board.

安装电容尺寸:  
Capacitor installation size:  
( $\varnothing$  10mm\*20mm)

引脚必须加厚热缩管  
Extra-thick heat shrink tubing required.

使用固态电容时, 需对表面做好绝缘保护!  
When using solid-state capacitor, ensure proper  
insulation protection on the surface!

## Upgrade Kit B

### Installation

(DJI O3 Air Unit Only)

Speedy Bee

1

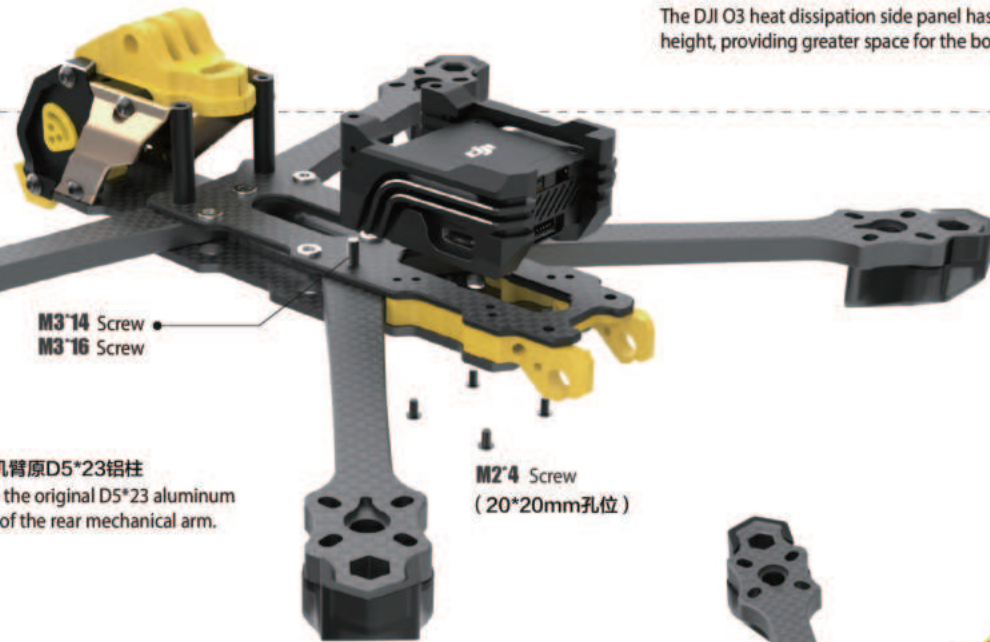

DJI O3散热侧板增加了安装高度，为底部的过线提供更大的空间。  
The DJI O3 heat dissipation side panel has increased the installation height, providing greater space for the bottom wire passing.

2

拆除后机臂原D5\*23铝柱  
Remove the original D5\*23 aluminum column of the rear mechanical arm.

\*(注：可在散热侧板与DJI O3的接触面增加散热硅脂，提高散热效果。)  
Note: Heat dissipation silicone grease can be added to the contact surface between the heat dissipation side plate and the DJI O3 heat dissipation side plate to improve the heat dissipation effect.

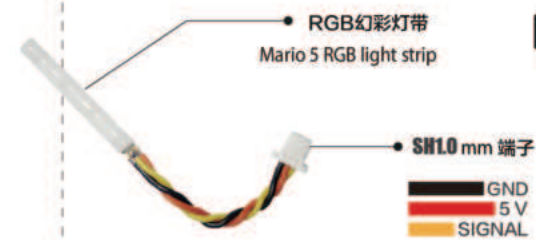

飞塔保护侧板  
Mario 5 Stack side plate (PC) R

3

将飞塔保护侧板斜卡入铝柱上  
Insert the stack protection side plate diagonally onto the aluminum column.

4

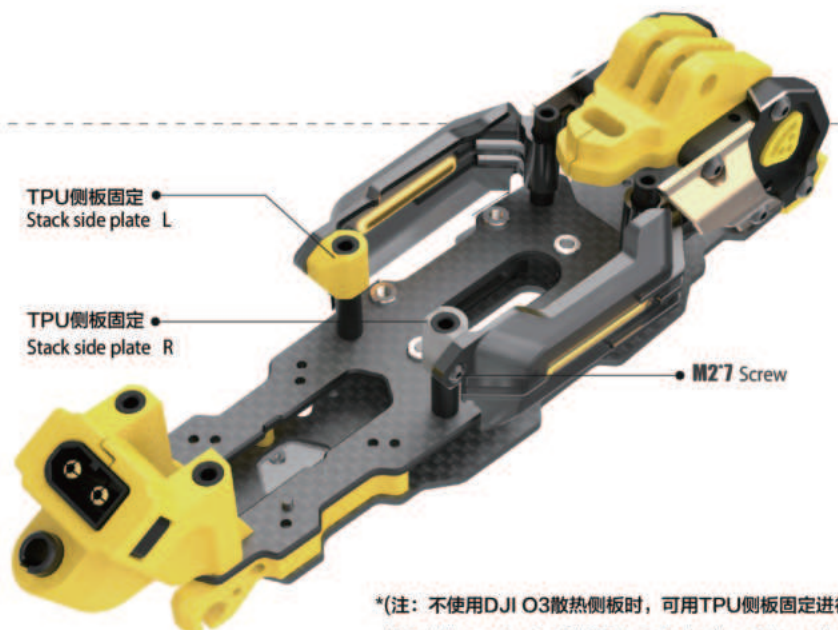

\*(注：使用端子与飞控连接时，注意线序是否正确，避免烧毁RGB灯带。)  
Note: When connecting terminals to the Flight Controller, ensure that the wire sequence is correct to avoid burning the RGB light strip.

TPU侧板固定  
Stack side plate L

TPU侧板固定  
Stack side plate R

\*(注：不使用DJI O3散热侧板时，可用TPU侧板固定进行紧固。)  
Note: When not using DJI O3 heat dissipation side panels, TPU side panels can be used for tightening.
